

Closing date for entries: 7 Sept '24, 5:00 PM

How to participate: Enter in teams of 4!

<b>Gotta Go!</b>	Your kart must have 4 wheels and be gravity-powered (no motors). No size, weight, or design limits. Typical size: 1-2m long, 40cm-1m wide. Remember, one person pushes, another steers, so consider the weight.
<b>Gotta Turn!</b>	Tip: Best to use simple pivot steering (front axle rotates on a central pivot) or four-bar linkage (like a car's steering system). Both will work!
<b>Gotta Stop!</b>	Braking options include skid pad on wheels (preferred for simplicity and effectiveness); skid pad on the ground (more complex, less effective); caliper brakes (like bicycle brakes, require precise construction); anchor or parachute (for fun). Good brakes are essential to prevent crashes.
<b>Gotta Wear a Helmet!</b>	Mandatory and helmets must not be altered. Elbow pads are strongly encouraged.
<b>Gotta Have Permission!</b>	Download and e-mail entry forms/permission slips by 5:00 PM on September 11th to <a href="mailto:chantenell0607@gmail.com">chantenell0607@gmail.com</a> . Parents should sign for drivers under 18.

Win a 2 night family getaway

at Camp Ndurukoro, Rundu
